#### **101.3.1.2 Office of Innovation and Development Alliances (IDEA)**

Effective date: 11/08/2011

The **Office of Innovation and Development Alliances (IDEA)** supports the Agency by developing, incubating, and scaling specific ways to attain sustainable development outcomes more quickly and effectively than traditional methods using new technologies (especially mobile), approaches, distribution methods, and financing mechanisms. It uses leveraged partnerships, particularly with the private sector, philanthropic, nongovernmental organizations, and diaspora communities to reduce costs, attain additional skills/assets, and mitigate risk. Specifically, the Office of Innovation and Development Alliances will focus on creating innovations with the potential to solve long-standing development challenges. The Office of Innovation and Development Alliances seeks to achieve the following objectives:

- Establish and Manage Partnerships Effectively by encouraging the widespread and decentralized creation of partnerships across the Agency in order to accelerate the Agency's desired development outcomes, delivered at a lower cost and more sustainably; making the Agency easier and more transparent to navigate for external actors and lowering transaction costs for both sides of acquiring and managing these relationships; tracking partnerships with organizations more effectively across the Agency; measuring results; fostering a community of practice and providing training on developing partnerships which focus on shared goals and responsibility for measurable outcomes; and serving as a relationship manager for existing key partners.
- Develop a Select Number of Major Global Partnerships on the Agency's focus areas to accelerate sustainable outcomes by leveraging the assets of others.
- Utilize Development Innovation Ventures to identify, support, test, and bring to scale projects with the potential to produce significant, rather than incremental, impacts on cost-efficient development outcomes.

entrepreneurship, remittance flows and payments (government, business and people to people), realizing cost-efficiencies over current methods.

- Realize the Full Promise of Mobile Technology to produce development outcomes by improving access, standardizing platforms (with preference for open standards) particularly in Agency, contractor and partner work, and creating a community of practice within the Agency to use mobile technologies when appropriate to gather results data and deliver services more efficiently and cost-effectively.
- Engage Broadly and Widely to acquire widespread support for USAID's work, and to expand the number and diversity of USAID's partners and applicants.
- Advocate for Innovation Adoption Across the Agency by identifying, championing, and recognizing innovative, replicable, and scalable projects, processes, and mechanisms across the Agency; and by utilizing the Innovation Fellows program to support other Bureaus, Offices, and Missions in their innovation needs.

The **Office of Innovation and Development Alliances Office of the Director (IDEA/OD)** is headed by the Chief Innovation Officer and is supported by two deputy directors who oversee and administer the office's programs and management activities through five (5) divisions: the Development Innovation Ventures Division, the Global Partnerships Division, the Local Sustainability Division, the Mobile Banking Division, and the Program and Strategic Planning Division.

The Division includes two components:

- (1) The Global Development Alliances (GDA) Advisory Services oversees the GDA initiative and other mechanisms for public-private partnerships in USAID; tracks partnerships more effectively across the Agency; maintains a community of practice and provides thought leadership and training on partnerships; and serves as a relationship manager for the Agency's key partners while encouraging the widespread and decentralized creation of partnerships across the Agency. The Division also resolves procurement, legal, and policy issues related to institutionalizing the GDA business model and reducing the transaction costs for implementing alliances; creates and implements a process to allocate its resources into cross-cutting, high value alliances that address Agency priorities; and directs assessment, research, and reporting activities to measure the value of alliances.
- (2) Strategic Partnerships leads the development of a select number of partnerships of strategic importance to the Agency. These partnerships, which number no more than ten, will include higher rates of leverage, have global or at least regional reach, and be expected to produce sustainable results.

ES serves as the Agency's executive communications center for the receipt, control, review, and dispatch of all written communications to and from the Administrator and Deputy Administrator. It develops Agency standards and instructions governing the preparation and handling of executive communications; and serves as the Agency's Top Secret document control point.

**b.** The **Executive Secretariat Operations Center (ES/OP)** provides round-the-clock response to emergencies and urgent requirements. It prepares regular, timely briefings for the Office of the Administrator on immediate issues impacting USAID's operations and objectives.

#### **101.3.1.4 Office of Security (SEC)**

Effective date: 05/09/2011

The **Office of Security (SEC)** provides centralized security support to the Agency and ensures that appropriate liaison with the Department of State's Bureau of Intelligence, Bureau of Research, and Bureau of Diplomatic Security is conducted on a daily basis.

The **Director of Security (SEC/OD)** supervises, directs, and controls all security activities relating to the programs and operations of USAID, with the exception of unclassified automated systems security. The Director

- Advises the Administrator and USAID senior staff on all security, technical security, and intelligence matters;
- Develops and publishes security and intelligence policy for USAID in

accordance with Public Laws, Executive Orders, appropriate Department of State regulations, and the direction of the Administrator of USAID; and

- Administers a program of centralized security and counterintelligence support to USAID operations worldwide, including overseas and domestic physical security, national security (classified) information, personnel security, industrial security, counterterrorism, and counterintelligence.

The Director serves as a key participant in the defense of the Agency's security resource requests before the Office of Management and Budget (OMB) and Congress. In addition, SEC/OD serves as the USAID focal point on security and technical security matters when dealing with the heads of all security, intelligence, and law enforcement agencies and offices throughout the Federal Government. These responsibilities include the negotiation of operating agreements with intelligence, law enforcement, investigative, and security agencies for the performance of security-oriented, investigative services for USAID.

The Director of SEC also serves as the senior Agency official responsible for implementation of [E.O. 12968, Access to Classified Information](#), [E.O. 12958, Classified National Security Information](#), [E.O. 12829, National Industrial Security Program](#), [E.O. 12333, United States Intelligence Activities](#), and [E.O.13224](#) as it relates to the screening of implementing partners for ties to terrorism.

The Director serves as Chairman of the Security Clearance Review Panel. In addition to the above, SEC/OD is responsible for procuring, securing, and maintaining unique security and intelligence data collection and processing systems used exclusively by the security staff to support operations. There are three divisions within the Office of Security.

**a.** The **Personnel Security Division (SEC/PS)** develops policies, criteria, and procedures for USAID regarding the scope and conduct of personnel security investigations as prescribed by [E.O. 10450, Security Requirements for Government Employment](#), and [E.O. 12968, Access to Classified Information](#). SEC/PS conducts, controls, and directs

- Personnel security, suitability, and HSPD-12 background investigations;
- Periodic reinvestigations, special investigations, and limited inquiry investigation;
- Evaluations of integrity, trustworthiness, and loyalty of USAID employees, prospective employees, and contractors.

This Division also investigates complaints of personal misconduct of significance

to the continuation of employment and retention of security clearances. SEC/PS provides the Deputy Assistant Administrator, Office of Human Resources (DAA/HR), who has primary responsibility for decisions as to appropriate actions in suitability cases, with information on significant suitability and employability factors developed during investigations. This Division provides SEC/OD with information regarding significant security issues, which are developed during investigations, and makes appropriate recommendations. SEC/PS develops and maintains effective liaison and counterpart officers in the Director of National Intelligence (DNI), the Office of Personnel Management (OPM), the Federal Bureau of Investigation (FBI), the Department of State's Bureau of Diplomatic Security, and other appropriate Government agencies. The Division is comprised of 4 branches:

- (1) Field Investigations Branch (SEC/PS/FI)** manages the team of independent contract investigators conducting investigative work in the field. The FI Branch recruits and trains field investigators (agents) to ensure investigative coverage throughout the United States, assigns case work, and monitors the quality of the reports of investigation to ensure the work product meets the investigative standards. The FI Branch also manages the contract mechanism for independent contract investigations, including obligations and payments.
- (2) Adjudications Branch (SEC/PS/A)** adjudicates cases involving access to classified national security information and HSPD-12 credentialing decisions. The A Branch reviews investigative files to ensure compliance with investigative standards, analyzes security concerns and mitigating factors, prepares adjudicative recommendations, and monitors the progression of cases. SEC/PS/A also notifies the hiring/contracting authority of issues which may impact an individual's suitability for government employment (or ability to represent the Agency as a contractor or personal services contractor).
- (3) Background Investigations Branch (SEC/PS/BI)** provides investigative program support by performing case control functions. The BI Branch conducts the initial review of all security requests for compliance with standards and reviews cases for an initial determination regarding eligibility for a temporary clearance. SEC/PS/BI also initiates electronic investigative records, dispatches and reviews investigative leads, requests investigative field work, and monitors the progression of cases until investigative work is complete.
- (4) Quality Assurance and Periodic Reinvestigations Branch (SEC/PS/QAPR)** manages the Division-wide quality assurance program and the periodic reinvestigations program. The QAPR Branch conducts quality assurance reviews of cases to ensure investigative

standards are met, the adjudicative guidelines are applied consistently, and that Division policies, procedures, and timelines are applied to case work. SEC/PS/QAPR also initiates periodic reinvestigations on employees, dispatches and reviews investigative leads or automated records checks, and monitors the progression of cases until the case is complete.

**b.** The **International Security Programs Division (SEC/ISP)** provides oversight, assistance, coordination, and consultation on all security-related functions at all overseas Missions. In addition, within the continental United States, the Division develops and maintains a domestic physical security program, establishing physical security safeguards in USAID/Washington for information, personnel, and facilities. The Security Safety program also sits within the Division's front office, focusing on implementing partner support of security safety programs at Missions overseas and conducting inspections of security at missions. SEC/ISP provides USAID with security guidance to implement effective overseas activities when confronted with the challenge of having demanding development and humanitarian programs in high threat environments.

There are two teams within the Division, (the **ASIA/ME/LAC Security Support Team** and the **AFR/EUR Security Support Team**) reporting to the Division Chief, which provide support to all USAID missions in assigned geographic areas, to include:

- Travel,
- Inspections,
- Reports,
- Security design, and
- Security project management.

Specific functions of the teams include design, installation, and oversight of security systems to counter terrorist attacks and other acts of violence against USAID facilities and personnel. This consists of administering an emergency, voice-radio communications program to support USAID operations overseas; and assisting in the decision process and implementation phase for new, surge and expanded programs in overseas locations. The teams develop policy promulgating physical security standards in accordance with the Omnibus Anti-Terrorism and Diplomatic Security Act of 1986. In addition, they provide USAID with guidelines to implement an effective USAID security program with emphasis on the protection of personnel, office facilities and employee residences, and the employment of appropriate countermeasures to mitigate vulnerabilities.

The two teams:

- Conduct security inspections of USAID facilities overseas to ensure compliance with Overseas Security Policy Board standards and joint foreign affairs security regulations;
- Conduct quality assurance evaluations of USAID security systems overseas to ensure they are functioning as designed;
- Arrange for appropriate security coverage for USAID conferences overseas;
- Arrange and/or provide appropriate security for the Administrator's travel;
- Develop and conduct security awareness training for USAID employees in all matters pertaining to the protection of personnel, facilities, and classified national security information;
- Coordinate special briefing requirements with other US agencies and departments for USAID personnel destined for overseas assignments; and
- Develop and maintain liaison with counterpart security and intelligence agencies to ensure acquisition of threat and activity information necessary to support agency decisions regarding overseas activities.

There are additional two branches within the International Security Programs Division.

- (1) The **Domestic Security Branch (SEC/ISP/DS)** operates and controls the physical security programs for the USAID headquarters building and other USAID facilities in the Washington, DC Metropolitan area. The programs include the headquarters building guard force, building pass office, access control system, and the alarm and CCTV systems. The Branch also oversees the operation of the USAID Visiting Diplomat Protection Program. SEC/ISP/DS serves as a technical authority in assignments requiring the application of theories and developments unique to physical security problems. The Branch performs key decision-making and policy-developing responsibilities in the subject area and advises top-level Agency security and subject matter managers on new developments and advances in security techniques in physical security. In addition, it recommends methods for enhancing efficiencies of security systems through modifications and applications of evolving technology and evaluates and makes recommendations concerning overall plans and proposals for major

agency and interagency security projects. Finally, the Branch implements national level guidance in Agency standards, guidelines, or policies for major security programs.

(2) The **Security Engineering Branch (SEC/ISP/SE)** is responsible for worldwide technical security projects and conducts in-depth technical security analysis, provides technical security countermeasure recommendations, and provides advice on all technical security operations. The Branch implements the security electronic program; armor vehicle program; repair and maintenance program; and provides technical installation support for security projects.

- c. The **Counterterrorism and Information Security Division (SEC/CTIS)**
- Develops policies and procedures for USAID regarding the screening of USAID's implementing partners for terrorism ties;
  - Manages the counterintelligence, classified national security information, and national industrial security programs;
  - Oversees the handling and storage of classified information; and
  - Implements an Agency inspection program for storage of classified national security information.

The Division houses the Counterterrorism Team, overseeing the Agency's counterterrorism program at the Terrorist Screening Center. This team manages, conducts, and coordinates the screening activities for all USAID organizations, to include

- Coordinating with the law enforcement and intelligence communities supporting the screening efforts;
- Overseeing the work of CTIS personnel detailed to outside elements for screening purposes; and
- Evaluating information uncovered during the screening process and providing recommendations regarding the impact of the information on USAID programs.

The Counterintelligence Team develops and implements policies and procedures governing the USAID counterintelligence program. This includes coordinating and investigating issues of extreme sensitivity and complexity affecting national security; coordinating technical surveillance countermeasures requirements at USAID facilities; advising Agency leadership on intelligence threats to domestic and international operations; and developing and conducting travel related pre-

briefings and debriefings and conducting counterintelligence training for new and existing employees.

The Information and Industrial Security Team, also housed in this Division, develops policies, criteria, and procedures for USAID governing the preparation, handling, and protection of classified national security information as prescribed by statute, Executive Orders, and other regulations. The team arranges for appropriate security coverage for USAID classified conferences within the United States. In addition, it approves space housing Sensitive Compartmented Information Facilities (SCIF) for the processing, handling, and storage of classified information. The team satisfies all reporting responsibilities required by the Information Security Oversight Office (ISOO) in accordance with Executive Order 12958, developing and implementing an Agency inspection program to detect, document, and correct problems with the marking, handling, and storage of classified national security information and also administers the USAID security violation program.

Additional functions of this Division include developing and conducting information security orientation and recurring security training for USAID Washington employees; and developing policies, criteria, and procedures regarding the protection of classified material from compromise. Finally, the Division

- Manages the National Industrial Security Program (NISP), which includes interacting with Contracting Officer's Representatives (CORs) and Foreign Service Officers to ensure proper security language is included in contracts and issuing the resulting DD254 forms;
- Interfaces with SEC/PS to ensure seamless operation of the visit request system;
- Resolves issues affecting contractor clearances and access; and
- Serves as a point of contact for contractors and Agency organizations for NISP administrative requirements.

#### **101.3.1.5 Office of Human Resources (OHR)**

Effective date: 10/15/2007

The **Office of Human Resources (OHR)** oversees the human resources function of the Agency. Its goal is to get the right people in the right place, doing the right work at the right time, with the right skills to create a more secure, democratic and prosperous world for the benefit of the American people and the international community. It includes all 10 of the activities recognized by the Office of Management and Budget as necessary for recruiting and retaining a high quality workforce. These include

SPP will work with other Bureau offices and the Office of Budget and Resource Management to analyze submitted strategies, and lead the Bureau's participation in the official country strategy reviews organized by the relevant regional bureaus.
- Lead formulation of strategic plans targeting selected crosscutting priorities such as youth/urbanization, counterinsurgency, and aid effectiveness, and support dedicated agency teams with other technical leadership developing plans in areas such as Food Security, Global Health, Climate Change, and Education.
- Serve as the “backstop home” for the Agency's Foreign Service and Foreign Service National Program and Project Development Officers (backstops 02 and 94 respectively).

**d.** The **Office of Learning, Evaluation and Research (PPL/LER)** will assume leadership responsibility for USAID efforts and will promote learning through evaluation, performance monitoring, knowledge management, and research. Bringing these elements together will advance the following objectives: designing interventions with learning in mind; highlighting evaluation as a means for contributing to the overall knowledge base of the Agency as well as for fulfilling the Agency's responsibility to be accountable; ensuring that knowledge

derived from evaluations and other sources, both internal and external, is utilized to inform policy formulation and undergird policy and program decisions at all levels; and committing to sharing Agency knowledge products widely outside of the Agency. While PPL/LER will play a crucial role as a catalyst, other Agency units in Washington Bureaus and overseas Missions, are equally essential to transforming Agency culture and expanding the development knowledge base. PPL/LER will work closely with other offices in PPL, putting into practice the concept of the Bureau itself being a learning organization. The Office will:

- Develop policies, practices, and processes to ensure that USAID promotes learning within the Agency and deepens technical expertise;
- Establish and update periodically a prioritized agenda for evaluation, knowledge management and research, supportive of the Agency's policy agenda, and undertake relevant projects to address priorities;
- Strengthen Agency capacities for evaluation, knowledge management, and research;
- Create and/or strengthen systems that make timely and relevant evidence on program effectiveness available to decision-makers at all levels in the Agency;
- Develop a framework for performance measurement, taking into consideration field-level realities as well as accountability requirements; and
- Develop and implement a process for setting research priorities and evaluating the value of research investments, and develop necessary policies regarding research, including, for example: issues of public access to data, open access publication, conflict of interest, and human subjects' protection.

**e.** The **Office of Science and Technology (PPL/ST)** is USAID's catalyst for looking forward and outward to identify future development challenges and leverage emerging science and technology to address those challenges. The trends, expertise, and inventive products that PPL/ST identifies will be key inputs into policy planning, country strategy development, learning, and engagement with the donor community and other partners. The products and processes that PPL/ST incubates will inform – and be informed by – policy priorities, evaluation findings, and internal learning. The Office will:

- Monitor and identify long-term trends for effective development and prepare for challenges and opportunities today and in the future. PPL/ST will become the agency hub for monitoring such long-term

trends; synthesizing existing forecasting efforts with the Global Information System (GIS) and other tools, commissioning others, and ensuring that policy planning and country strategies take trends fully into account.

- Engage scientific and technological communities. PPL/ST will ensure that the Agency is an active, knowledgeable, and respected participant in global discussions of the S&T requirements for development. PPL/ST also will survey new research and new products for their development potential, and where potential exists, disseminate that potential to appropriate communities both inside and outside USAID.
- Enhance USAID's capacity and development effectiveness through improved use of science, technology, and innovation. PPL/ST will strengthen USAID's technical excellence by promoting career development of direct hire staff and supplementing those staff with shorter-term scientific expertise through fellowship and other programs.
- Promote innovation for development. PPL/ST will explore and develop cutting edge research ideas, those that may have both a high risk of failure and a high potential for social impact. PPL/ST will identify areas where USAID's development mission and the opportunities to leverage science, technology, and innovation are great; experiment with competitions to develop novel solutions to pervasive challenges in development; incubate particularly promising products or approaches through pilot-testing or joint ventures; and champion the values of innovation and creativity within USAID, creating a corporate culture and establishing performance incentives that reward staff research, creativity and technical excellence.

**f.** The **Office of Donor Engagement (PPL/DE)** has the following goals: advance the US Government's development policy agenda within the donor community; influence other donor policies or actions in specific areas of interest to the US; and gain and share knowledge with other donors about development approaches, practices and experiences. By including PPL/DE within the same organizational structure that houses policy, planning, evaluation, and science and technology, the Agency is well placed to build and develop mutually beneficial, robust donor relationships. The Office will

- Identify opportunities for the Agency to engage with bilateral and multilateral donors to advance specific policy goals;
- Lead co-lead, or coordinate Agency collaborations with other donors on issues that require USAID/Washington attention;

- Manage the Development Counselors and similar positions overseas and in the US, utilizing them to work with bilateral donors or multilateral organizations to represent the Agency, to identify areas of mutual interest, and to facilitate policy and operational coordination between USAID and other donors;
- Lead the Agency in discussions and negotiations regarding aid effectiveness and other major Administration development initiatives; and
- Coordinate USG policy engagement in reviewing and revising the Millennium Development Goals.

The **pillar Bureaus** provide technical advice and support to the Regional Bureaus and field Missions on design, implementation, and evaluation of Mission technical strategies and programs. There are four pillar Bureaus:

- a. Bureau for Food Security (BFS);
- b. Bureau for Global Health (GH);
- c. Bureau for Economic Growth, Agriculture and Trade (EGAT); and
- d. Bureau for Democracy, Conflict and Humanitarian Assistance (DCHA).

#### **101.3.1.17 Bureau for Food Security (BFS)**

Effective date: 11/21/2010

The **Bureau for Food Security (BFS)** is responsible for guiding and directing all USAID development activities under the **Feed the Future (FTF) Initiative**, the U.S. Government's global hunger and food security initiative and all agriculture activities within USAID. The BFS issues policy guidance on food security issues and promotes the Agency's efforts to achieve FTF's overall goal of substantially reducing global hunger and poverty. The Bureau has overall responsibility for the strategic planning, funding, design, implementation oversight, and evaluation of all programs and projects which contribute to the achievement of the FTF's two key objectives: accelerating inclusive agriculture sector growth, and improving nutritional status, especially of women and children. The BFS reviews and approves all FTF-related strategies for investments in FTF focus countries, as well as complementary investments in regional programs, strategic partners, and multi-lateral mechanisms. As a general practice, BFS will collaborate with all relevant Bureaus in carrying out the missions and objectives of

the FTF Initiative, especially with the Bureau for Global Health on those nutrition activities that are closely intertwined with the Global Health Initiative as well as the FTF.

The Bureau is led by an Assistant to the Administrator, who also serves as the Deputy Coordinator for Development of the Feed the Future initiative. BFS is comprised of four subordinate Offices.

**a. The Office of the Assistant to the Administrator (AA/BFS)** provides senior level advice and guidance on food security issues to the Administrator of USAID, as well as other Federal agencies, and FTF partners and stakeholders. The Office provides leadership to the BFS staff in carrying out the Bureau's Agency-wide responsibilities for all development aspects of the FTF. The Office includes the Deputy Assistant to the Administrator of the BFS and houses the Bureau's Administrative Support Staff.

**b. The Country Programs Office (BFS/CP)**, in consultation with Regional and Pillar Bureaus, provides leadership for the Bureau on food security-related country and regional strategic planning, USAID policy development, performance monitoring and evaluation, and Bureau budget functions related to food security. BFS/CP develops and provides oversight on implementation of coherent, region-wide food security agendas and strategies. BFS/CP is the central point of contact on food security issues within the Agency, and on consultation with partners and stakeholders on FTF programs and projects. The Office

- Manages the strategic planning and review function for all USG-led food security programs, including the fielding of teams for strategic planning purposes;
- Provides guidance to USAID/Washington and field Missions on overall food security policy, programming and budgeting strategies and policies;

The Country Policy Advisors serve as the USAID/Washington principal points of contact with the Agency's external audiences, Bureaus, and Missions' agricultural and food security staff, responding to stakeholder inquiries and requirements for

information specific to their respective regions. They are the focal points for knowledge and information on FTF issues and investments in the countries of their region, including having convening authority on country and region-specific issues, strategies, and investments in advancing FTF objectives. The Office is composed of two Divisions.

(1) The **Program and Budget Division (BFS/CP/PB)** prepares all budget documentation and reports, as well as analyzes USAID/W and overseas food security assistance programs for budget implications; serves as the Bureau's audit and investigation liaison; manages preparation and review of all Agency cyclical documentation for BFS, such as Congressional Presentations and Congressional testimony; tracks compliance with Congressional earmarks; and provides program procurement planning for the USG's Washington-based food security program funds. The Division maintains the Food Security Newsletter and website and manages and tracks responses to all external, i.e., public communications regarding food security issues, ensuring development and dissemination of coordinated messages on the Agency's food security activities. This Division also coordinates other donor and non-governmental participation in food security activities, in collaboration with technical offices, working with the World Bank, U.N. Food and Agricultural Organization, and other international and regional organizations to formulate common agricultural policies.

(2) The **Strategic Planning and Performance Division (BFS/CP/SPP)** provides leadership, guidance, and advice to Agency personnel on food security – related development strategy formulation, performance measurement and monitoring and reporting, as well as evaluation. The Division, in consultation with Pillar and Regional Bureaus and Missions, manages the fielding of teams to provide technical assistance for developing Country Investment Plans; develops food security-related data, including development of indicators, strategies, evaluations, and performance monitoring systems; develops and manages the monitoring and evaluation function of food security activities for USAID/W; and supports and/or provides the analysis of country, regional, sector, and activity-level impact on food security of proposed strategies and development assistance activities, including arranging appropriate procurement instruments for all of the aforementioned. The Division manages oversight of the design, review, approval, implementation, and central administration of all BFS regional activities falling within the strategic planning, monitoring and evaluation and performance measurement area. In addition, in consultation with PPL, BFS/CP/SPP manages program strategy and policy guidance development on food security, coordinating with other relevant Bureaus and agencies.

BFS/CP/SPP houses all strategic, performance and monitoring data information, evaluations and analyses which are collected and made available for USAID and other agencies through the Development Experience Clearinghouse (DEC) and a website that the Knowledge Management unit will implement. BFS/CP/SPP also coordinates closely with technical units and other Bureaus to track potential food insecure situations, performing analyses to determine what measures can be undertaken to prevent situations from worsening, as well as planning for the requirements of future programs.

**c.** The **Agricultural, Research and Technology Office (BFS/ART)** provides guidance and technical support in the design and implementation of investments that will achieve the FTF initiative's goal of accelerating inclusive agriculture sector growth, defined as the science and practice of activity related to food, feed, and fiber production, processing, marketing, distribution, utilization, and trade, including family and consumer sciences, food security-related nutrition, food science and engineering, agricultural economics and other social sciences, aquaculture, floriculture, veterinary medicine, and other environmental and natural resource sciences. The Division staff participates in the review and approval of all USAID and centrally-funded programs and projects to assure that they support the Agency's agriculture and food security policies. It also participates in the recruitment, assignment, and professional development (including education and training) of all Agency personnel engaged in food security and agricultural development.

**(1)** The **Research Division (BFS/ART/R)** guides and directs the Agency's research on food security issues and is launching a new global research program that funds investments in the three FTF priority areas:

- *Advancing the productivity frontier*, using the best, most appropriate science to increase the yields and incomes of smallholder farmers by developing improved, highly productive seeds of staple crops and hardier livestock, and lessening the impacts of pests, diseases and drought.
- *Transforming production systems* in the major agro-ecosystems where the poor and food insecure are concentrated; adopting a comprehensive approach that teams global technology advances with local conditions and markets; developing new approaches that conserve soil, water and energy sources, while also increasing productivity and incomes; and reducing risk and fostering investments to increase soil nutrient flows, yields, and sustainability; and
- *Enhancing nutrition and food safety*, increasing the productivity of high-quality, nutritious foods, such as grain legumes;

improving food safety by reducing fungal contamination of staple foods, and increasing the quality and safety of animal source foods; and promoting dietary diversity and health, particularly among women and children.

BFS/ART/R draws on research support from a variety of national and international sources, including the multilateral Consultative Group on International Agricultural Research (CGIAR); the Collaborative Research Support Programs (CRSP); and USAID's biotechnology portfolio, which links to universities, research institutions, and the private sector in the U.S. and focus countries. BFS/ART/R works closely with the U.S. Department of Agriculture on food security initiatives to realign USDA's research with FTF.

BFS/ART/R supports efforts to strengthen focus and non-focus country research institutions. The Division also supports universities and extension services, and develops training programs for local agricultural researchers and research administrators. It also provides a locus for science and technology capacity building related to agricultural research, sustainability and food security-related climate change.

**(2) The Technology Division (BFS/ART/T)** develops, implements, and evaluates Agency strategy and policies for accelerating agriculture sector growth and achieving an enabling policy environment in the focus countries. The Division provides technical guidance and support to Bureaus, USAID Missions and focus countries in the design and implementation of FTF investments that promote increased agricultural productivity linked to related poverty, gender, environment and climate change goals. The Division

- Promotes investments in the development of new agricultural technologies, including the use of biotechnology in plant and animal research and the development of high quality seed, livestock feed and fertilizer. The Division coordinates with other BFS offices in the identification of appropriate agricultural research and the dissemination of research results through various outreach mechanisms;
- Provides advice and technical assistance to Bureaus and Missions in the development and implementation of their Country Implementation Plans, and help guide countries in the development and implementation of their Country Investment Plans;

- Provides technical guidance and assistance to Bureaus, Missions and focus countries in designing, implementing and evaluating agricultural and food security programs and projects, including information on best practices in the agricultural sector;
- Advises Agency leadership on critical issues that impact on efforts to achieve food security and raise nutritional levels;
- Conducts agricultural economic analyses that inform the development of Agency agriculture and food security policies, and supports measures to improve focus country capacity to conduct agriculture policy analysis and build information systems that enable sound decision-making;
- Supports measures to strengthen the enabling policy environment in the focus countries and develop improved the indicators for measuring progress and performance in FTF; and
- Evaluates on-going FTF programs and projects and captures and disseminates information on the lessons learned to Missions, focus countries, and other stakeholders.

BFS/ART/T advises Missions and focus countries on institutions, mechanisms, websites and toolkits that are available to assist in the design and implementation of agricultural and nutrition programs and projects, and contract and grant mechanisms that can be used in efforts to apply biotechnology in research and production. BFS/ART/T also coordinates with the Bureaus for Democracy, Conflict and Humanitarian Assistance (DCHA) and Global Health (GH) in addressing the risks and problems of the most vulnerable groups in the focus countries, and promoting investments that target those groups.

**(3)** The **Multi-Sector Division (BFS/ART/MS)** provides technical policy guidance and support to Bureaus, Missions and focus countries in addressing cross-cutting issues that are relevant in the design, implementation, and evaluation of FTF programs and projects, as well as support for host country policy development including:

- Gender. With Regional and Pillar Bureaus, integrating gender concerns in all stages of the planning and implementation of FTF investments; encouraging investments that strive for gender equality; incorporating gender best practices in the development and

implementation of Country Investment Plans; supporting gender-sensitive consultation with partners and stakeholders; empowering women by increasing access to new farming skills, agricultural inputs, health knowledge and quality health services; and monitoring and evaluating the gender aspects of all FTF investments;

- Nutrition. In collaboration with the Bureau for Global Health, strategic planning for the nutrition element of Country Investment Plans and strengthening the links between agriculture and nutrition outcomes; assuring that FTF-related nutritional initiatives are coordinated with those of the Global Health Initiative (GHI); and promoting investments that enhance diet quality and diversity and improve the delivery of nutrition services by health systems linked to community-based programs that prevent and treat malnutrition;
- Natural Resources Management. With Regional and Pillar Bureaus, designing and implementing investments in land, water, forests and fisheries projects that provide multiple benefits in terms of food production, environmental health, and nutrition; and promoting policy reforms and the development of a range of improved technologies and approaches through extension and other outreach which improve the management of natural resource assets;

Addressing policy environments in the focus countries that impede advances in farm productivity and enterprise competitiveness and leave segments of populations with unequal rights, especially with regard to land tenure. Working with USAID Missions and host country officials, other stakeholders and partners, including public and private

sector organizations and civil society, ensures that all relevant actors are active participants in USAID food security-related strategic planning, implementation, and evaluation activities. [Note: GH retains the overall technical, management, program and budgetary responsibility for the public health nutrition activities supported with Global Health Child Survival (GHCS) funds.]

BFS/ART/MS works with civil society to build community and household assets; reduce vulnerability to climatic and economic shocks; and accelerate the participation of very poor households and communities in rural economic growth. The Division also coordinates with BFS/ART/R in identifying and supporting research that informs Agency policy and an enabling environment in the focus countries.

**d. The Private Sector and Innovation Office (BFS/PSI)** provides policy guidance and technical support in the design and implementation of FTF investments that will strengthen the role and capacity of the private sector, especially agribusiness, to contribute to the achievement of the FTF's goals and objectives. **g. The Center of Excellence on Democracy, Human Rights, and Governance (DCHA/DRG)** engages in four distinct activities to carry out its mission to help USAID advance democracy, human rights, and governance as an integral part of the Agency's development and humanitarian assistance.

- The DRG Center systematically generates knowledge on what works best in advancing democracy, human rights, and governance

globally and disseminates the knowledge to Missions, the wider USG, and the international development community.

- Drawing on this knowledge, the DRG Center serves as a consultancy group for the DRG sector to Missions and the wider Agency, helping to apply that knowledge practically and programmatically.
- The DRG Center manages a focused portfolio of grants, contracts, and funds that function as critical tools to help advance democracy, human rights, and governance.
- The DRG Center works with the Policy, Planning, and Learning Bureau (PPL) to represent USAID's DRG sector in interagency arenas, ensuring that DRG programs are integrally linked with U.S. diplomatic efforts and U.S. national-security policy.

The DCHA/DRG Center consists of the following eight teams:

- (1) The **Strategic Planning Team (DCHA/DRG/SP)** manages the DRG Center's strategic planning, budget formulation and execution, and program implementation to support the Center's evidence-based technical leadership in DRG to Missions and the wider development community. The SP Team provides leadership to the Center in the areas of financial management, administration, and human resources; provides DRG training to development officers; and implements the DRG Center's communication strategy in line with the goals of the Center and the DCHA Bureau, including a DRG "community of practice" for USAID DRG officers.
- (2) The **Learning Team (DCHA/DRG/L)** supports the DRG Center in generating and managing knowledge in the area of DRG programs. This includes the creation, acquisition, dissemination, and implementation of this knowledge across the Agency using qualitative and quantitative methods. The Learning Team oversees cutting-edge impact evaluations, conducts research and innovations in the DRG sector, maintains strong relations with the international academic community, manages (in cooperation with the Strategic Planning Team) a DRG "community of practice" across the Agency's DRG membership, and provides methodological support to other teams in the DRG Center. The L represents the DRG Center directly to PPL's Learning Division.
- (3) The **Global and Regional Policy Team (DCHA/DRG/GRP)** supports the development and implementation of evidence-based DRG policies,

strategies, and budgets at the global, regional and country level. The GRP Team leads the Center's efforts at supporting country-specific DRG assessments and strategies. The team also represents the DRG sector in the Governing Justly and Democratically (GJD) budget formulation and execution process, conducting analysis and advocacy to link global and country DRG funding with needs and opportunities as well as ensuring that budget levels are consistent with core policies and strategies. Finally, the team engages within USAID and in the interagency to forge an effective link between U.S. diplomacy, policy, and programs regarding the promotion of DRG.

- (4) The Elections and Political Transitions Team (DCHA/DRG/EPT)** provides leadership and technical assistance on political competition and consensus-building programs to USAID field Missions and bureaus, other U.S. Government entities, and the broader DRG community. In doing so, the EPT conducts technical leadership on specific issues (including cutting-edge electoral issues) and delivers technical assistance to strengthen election administration, political parties, political finance, election monitoring and observation, voter education, and the political participation of women and marginalized groups. The EPT Team also manages the Elections and Political Processes Fund, which provides USAID Missions funds for unanticipated electoral needs and innovative programs.
- (5) The Governance and Rule of Law Team (DCHA/DRG/ROL)** supports activities to improve the accountability, transparency, and responsiveness of governing institutions, systems and processes. - (6) The Human Rights Team (DCHA/DRG/HR)** provides field support and technical leadership on human rights issues to USAID senior staff, operating units, and other USG agencies. The team identifies and disseminates best practices in the protection and promotion of physical integrity (such as freedom from torture, arrest, and slavery) and other civil and political rights, and equal protection under the law, including protections for minorities, marginalized, and vulnerable groups. The team supports USAID Missions and DRG officers through training and technical support, including strategy and program design, assessments, and evaluations, and the provision of program funding and technical assistance. The empowerment of women is a particular focus of this team. The team also works to ensure that respect for human rights principles is integrated throughout USG development work.

(7) The **Civil Society and Media Team (DCHA/DRG/CSM)** provides technical leadership and support to USAID operating units and other USG agencies on civil society, including youth, labor and media issues, to generate comparative knowledge on effective approaches for strengthening civil society and independent media; piloting state-of-the-art approaches to civil society and media support; strengthening the Agency's DRG staff through training and technical support, including assistance in civil society, labor and media strategy and program designs, assessments, and evaluations; and designing and managing a targeted portfolio of global civil society, labor and media programs. CSM promotes innovations in the civil society, labor and media arenas, including the use of social media and other new media technologies as a means for addressing development challenges, and represents USAID in international processes, networks, and working groups focused on civil society, labor and independent media.

(8) The **Cross-Sectoral Programs Team (DCHA/DRG/CSP)** provides leadership on the integration of DRG across the Agency's development efforts and advances USAID FORWARD's Implementation and Procurement Reform Initiative. The team leads the Center's support of the USG development goals through advocacy, training, information-sharing, research, and targeted technical assistance towards the planning, assessment, design, implementation, and evaluation of cross-sectoral DRG integrated programs and activities. The team supports activities and training to enhance conditions and opportunities to engage host-country systems (including public sector, private sector, and civil society), to strengthen the capacity of host country partners to increase sustainability of development investments.

h. The **Office of Conflict Management and Mitigation (DCHA/CMM)** provides technical leadership and field support for USAID programs designed to help countries at risk of violent conflict. In coordination with the Office of Strategic Planning and Operations (ASIA/SPO), ME/TS plans and manages the Asia and Near East Central Program, including preparing the Operational Plan and annual Performance Reports and leading implementation of regional and cross-cutting activities. The Office advises the Administrative Management Support Team on skill requirements and personnel qualifications for all Bureau technical positions, assignments, and recruitment.

**c.** The two **Geographic Offices** provide liaison and backstopping functions for Middle East field posts. The Geographic Offices coordinate and lead the review and approval of all proposed assistance in presence countries, and the strategy development as well as the review and approval of all proposed assistance in non-

presence countries, from the standpoint of suitability to the country or area development situation and contribution to the achievement of results as specified in the strategy. The Offices work in tandem with SPO for interagency review and for approval by F of operational plans and budgets. The Offices also coordinate and lead the review and follow-up of country program strategies, Annual Report Reviews, field Congressional Presentation input, Congressional Notifications, and other documentation presented for USAID/Washington review and approval.

The Offices serve as the USAID/Washington principal point of contact with the Agency's external audiences and respond to stakeholder inquiries and requirements for information. The Offices interact with Department of State geographic offices to ensure mutual understanding and meshing of foreign policy goals, program objectives, and individual agency administrative requirements, and to coordinate USAID participation and representation in USAID/Washington at multilateral and other donor meetings on area countries, particularly the annual Consultative Group Meetings. Other frequent interactions include those with the U.S. Office of Management and Budget, the Treasury Department, the National Security Council, the Department of Defense, and other U.S. Federal departments and agencies, as well as bilateral and multilateral donors, Congress (with LPA), and the Embassies of Middle Eastern countries.

**(1) The Office of Middle East Affairs (ME/MEA)** provides effective and efficient headquarters guidance and support to USAID activities and programs in the Middle East Region. Egypt, Jordan, Lebanon, Morocco, West Bank/Gaza, and Yemen are USAID posts with a combination of DA, ESF and International Development Assistance (IDA)-funded programs. Algeria, Israel, and Tunisia are posts where ESF-funded activities continue to operate. ME/MEA also provides advice and assistance to the Office of Middle East Programs (OMEP), based in USAID/Egypt, which supports U.S. Government and multi-lateral initiatives and develops programs that address common, transboundary development issues of impact to the Middle East region. ME/MEA is the principal point of contact and coordination with the Department of State's Bureau for Near East and Asia for the above Middle East programs.

**(2) The Office of Iraq and Arabian Peninsula Affairs (ME/IAPA)** provides headquarters guidance and support to USAID activities in Iraq. The Iraq reconstruction program is the largest and most intensive effort that the United States has mounted since the Marshall Plan. This particularly demanding program requires close coordination with the National Security Council and the Department of Defense in addition to the regular liaison functions performed at the headquarters level. ME/IAPA is the principal USAID point of contact with State/NEA on Iraq and with State's Coordinator for Iraq (S/I).

### **101.3.2 Overseas Organizations**

Effective date: 02/08/2001

USAID manages a wide variety of U.S. foreign economic and humanitarian assistance programs in the developing world, Central and Eastern Europe, and the new independent states of the former Soviet Union.

#### **101.3.2.1 USAID Bilateral Country Missions**

Effective date: 02/08/2001

USAID bilateral country Missions are established when the U.S. assistance program is continuing, ranging from minor programs with a single focus to major programs with multiple types of assistance within several sectors. Missions are categorized as small, medium, full, and full support depending on the scope and complexity of their programs, and their program and staff levels. Responsibility for establishing and achieving strategic objectives lies with the organization. Essential services such as program development, problem analysis, project design, program/budget documentation, implementation monitoring, financial management, and administrative/logistical support are provided internally at full and full support Missions and most medium Missions. Small Missions receive support as needed from full support Missions or Regional Service Centers.

#### **101.3.2.2 Offices of the USAID Representative**

Effective date: 07/31/2003

Overseas bilateral Missions that have two or fewer U.S. direct hire employees are titled as Offices of the USAID Representative. Their principal officer is the USAID Representative. These Offices have the same characteristics as small bilateral Missions and look to full and full support Missions for many essential services.

#### **101.3.2.3 USAID Centers for Multi-Country Programs and Support**

Effective date: 10/15/2007

USAID centers for multi-country programs administer USAID activities and provide support involving multiple countries. Examples include

- a. Regional Platform Missions,
- b. Regional Program Missions, and
- c. Regional Service Centers (RSCs).

#### **101.3.2.4 USAID Bureau for Democracy, Conflict, and Humanitarian Assistance Presence**

Effective date: 07/31/2003

The Bureau for Democracy, Conflict, and Humanitarian Assistance (DCHA) represents the Agency at the World Food Programs office in Italy and maintains programs both with and without U.S. direct hire presence throughout the world where humanitarian assistance is needed.

**101.3.2.5 USAID Representation Offices**

Effective date: 02/08/2001

USAID Representation offices are maintained by the Office of Development Partners (ODP) in four international organizations:

- a. Office of AID Coordination/Geneva,
- b. Development Assistance Committee/Paris,
- c. Office of Development Cooperation/Tokyo, and
- d. European Commission Coordination/Belgium.

**101.3.2.6 Field Offices of the Inspector General**

Effective date: 02/08/2001

- a. Regional Inspector General for Audit offices, and
- b. Investigative Field Offices.

**101.3.3 Overall Organizational Approaches for USAID**

Effective date: 02/03/2006

To meet the challenges of the twenty first century, USAID is organized to provide assistance to countries so that its resource allocations are aligned with its strategic objectives. (See [ADS 201.3](#), Alternative Approaches to Managing Programs)

**101.3.3.1 Country Focus**

Effective date: 10/15/2007

USAID uses the following models to implement country programs (see [ADS 201.3](#)):

- **Model A (No Specific Country Framework, Strategic Plan, Operational Plan, and In-Country USDH Staff).** Model A represents the least amount of USAID country-level management effort and may be adequate when the nature and scope of activities require limited coordination and oversight. In this model specific activities are implemented but are not governed by country-level SOs. All activities are governed by regional or sector Strategic Plans and Operational Plans of USAID Washington Operating Units or presence country Missions.

- **Model B (Specific Country Framework but No Country Strategic Plan or Operational Plan).** In Model B, Bureaus improve coordination and effectiveness by means of sub-bureau planning frameworks with country-level goals. All activities, including planning, implementation, and reporting, must be managed under a Regional or Pillar Bureau Strategic Plan by the Operating Unit responsible for that plan.
- **Model C (Country-level Strategic Plan and Operational Plan, Annual Report Prepared outside of Country, but No In-country USDH Staff).** Bureaus choose Model C when additional visibility and higher USAID management intensity are useful and when dedicated staff can be assigned to manage achievement of the SOs. This model includes a country-level Strategic Plan and Operational Plan, with one or more Strategic Objectives and corresponding operating year budget (OYB) representing funding for the SOs.
- **Model D (Country-level Strategic Plan and Operational Plan, Project OYB Funding, and In-Country USDH Staff).** Model D represents the traditional “presence” country approach, where full-time, in-country staff conducts the full range of planning, achieving, and assessing and learning functions.

### 101.3.3.2 Allocation of USAID Resources

Effective date: 02/03/2006

USAID allocates its resources according to the Core Strategic Goal (See [ADS 201.3](#)) that best characterizes the country program and a strategic budgeting approach encompassing program performance and country need. The approach aligns budgetary availabilities with staffing needs on the basis of Mission Management Assessments and workforce modeling.

### 101.3.3.3 Policy Framework for Bilateral Foreign Aid

Effective date: 10/15/2007

The Policy Framework for Bilateral Foreign Aid was established in January 2006 to provide strategic management of U.S. bilateral foreign aid. This policy identifies, clarifies, and distinguishes among USAID’s core strategic goals; calls for a clearer alignment of resources with each goal; and establishes principles for strategic management to achieve results in terms of each goal. It thereby provides the overarching framework for USAID strategies and policies, and for USAID strategic planning, budgeting and programming. USAID’s policy framework is based on five core strategic goals:

- **Promote transformational development** by promoting far-reaching, fundamental changes in governance and institutions, human capacity, and

economic structure, so that countries can sustain further economic and social progress without depending on foreign aid.

- **Strengthen fragile states** by reducing fragility and establishing the foundation for development progress by supporting stabilization, security, reform, and capacity development.
- **Support strategic states** by helping to achieve major U.S. foreign policy goals in specific countries of especially high priority as key allies from a strategic standpoint.
- **Provide humanitarian relief** by helping to meet immediate human needs, save lives, and alleviate suffering in countries afflicted by violent conflict, crisis, natural disasters, or persistent dire poverty.
- **Address global issues and other special, self-standing concerns**, undertaking activities that relate to concerns such as HIV/AIDS and other infectious diseases, climate change, biodiversity, direct support for international trade agreements, and counter narcotics efforts.

Continued economic and social progress that rests on four key principles: improved quality of life for both current and future generations; responsible stewardship of the natural resource base; broad-based participation in political and economic life; and effective institutions that are transparent, accountable, responsive, and capable of managing change without relying on continued external support. The ultimate measure of success of sustainable development programs is to reach a point where improvements in the quality of life and environment are such that external assistance is no longer necessary and can be replaced with new forms of diplomacy, cooperation, and commerce.
